Review Dementia State Plan Draft Goals 1 & 4

Mr. Worthington reviewed the BOLD grant from VDH and discussed the strategies that are related to the Commission and its workgroups. He walked the group through the Draft of the Dementia State Plan including the Lifecourse Model of Dementia Awareness, Supports and Services. With the Model, Mr. Worthington noted that there are training opportunities at every stage of the model. He then provided an overview of the draft goals and objectives, and reviewed several of the proposed strategies. The Dementia State Plan will be reviewed by the Commission on December 12.

George Worthington

There was some discussion about how the BOLD grant activities would intersect with the workgroup's activities.

Mr Worthington discussed the various care coordination programs underway in Virginia and the Dementia Care Coordination Roundtable, and the vision of having dementia care coordination services available to everyone in Virginia who would like it. He also reviewed the potential roles of the Dementia Care Navigators that are in the Commission's legislative recommendations were discussed.

Workgroup Activity for 2024

Mr. Worthington noted that the workgroup's first priority will be to prioritize the various strategies under Goal 1 & 4 in terms of short-, medium- and long-term to inform the development of the implementation and evaluation plan that is a deliverable of the BOLD grant.

The workgroup also reviewed the priorities that the group had been working on last year to see whether some of these could be continued or restarted. Some of them have been picked up through the BOLD grant such as Dementia Road Map one pagers, but there are opportunities to create additional one-pagers.

Ishan Williams, George
Worthington

Meeting Adjournment

Ms. Williams asked members to think about other potential members to introduce to the workgroups. She adjourned the meeting at 2:00pm.
