Review Dementia State Plan Draft Goals 2 & 5

Mr. Worthington walked through the Draft of the Dementia State Plan including the Lifecourse Model of Dementia Awareness, Supports and Services. then provided an overview of the draft goals and objectives and reviewed several of the proposed strategies. The Dementia State Plan will be reviewed by the Commission on December 12.

There was discussion about aligning ARDRAF with the Dementia State Plan. Members also discussed previous activities such as the survey of researchers, and how to support collaboration among researchers, and increase participation into research.

There was also some discussion about how the BOLD grant activities would intersect with the workgroup's activities.

Discussion: Workgroup Activity 2024

Mr Worthington reviewed the workgroup's previous activities that had not been completed such as the survey of researchers, creating infographics for public dissemination based on up-to-date data (with the new collaborations with the Virginia Department of Health and the Virginia Memory Project offering new opportunities), and supporting collaborative efforts among the research community in Virginia. Members discussed both of these opportunities and felt that these were still valuable to pursue.

Worthington

Mr Worthington will share the survey that had been created with members ahead of the next workgroup meeting.

Mr. Worthington noted that the workgroup's first priority will be to prioritize the various strategies under Goal 2 & 5 in terms of short-, medium- and long-term to inform the development of the implementation and evaluation plan that is a deliverable of the BOLD grant.
